

ZT CLINIC

STRONGER, FASTER!

- HOT/COLD
- CONTROLLED TEMPERATURE
- THERMAL SHOCK

ZT CLINIC

It is a non-invasive and non-aggressive therapeutic method that allows rapid recovery. the characteristic of **ZT CLINIC** is the controlled and timed use of **cryotherapy and thermotherapy**.

The benefits of the **Cold/Hot** and **Hot/Cold** therapy generated by **ZT CLINIC** are many:

- ANALGESIC ACTION;
- INHIBITORY ACTION ON TRIGGER POINTS;
- INCREASE OF THE MICROCIRCULATION;
- EFFECTIVE VASCULAR GYMNASTICS;
- FACILITATION OF MUSCLE RECRUITMENT;
- REDUCTION OF STIFFNESS;
- RECOVERY;
- INCREASE IN LOCAL BLOOD FLOW.

CRYOTHERAPY TODAY

- Crushed ice cubes, gel, spray
Ice in the bathtub, ice tubs with water in circulation
- No temperature control

ZT CLINIC

ZT CLINIC allows to obtain the best recovery after an injury or from functional overload pathologies, or in case of algic exacerbations of arthritic pathologies, thanks to the temperature control.

TREAT INJURIES

- ACUTE PHASE
- SUB-ACUTE PHASE
- REHABILITATION

TREAT ATHLETS

- DEALING WITH ACUTE PHASE
- DEALING WITH CHRONIC PHASE

RECOVERY SYSTEM

- RECOVERY AFTER INTENSE PHASE OF WORK OR AFTER INTENSE COMPETITION / EFFORT

TREATMENT OF INJURIES

TODAY THE IMMEDIATE TREATMENT OF MUSCLE INJURIES IS A PRIORITY.

ZT CLINIC thanks to **temperature control** and thermal shock allows to speed up recovery times as the treatments are customizable for the various phases: acute and sub-acute.

ZT CLINIC allows you to modulate and **customize treatments** for each patient and to work on the area to be treated thanks to the soft anatomic bands, easily conformable to the area to be treated.

ZT CLINIC provides a series of **preset programs** for various diseases that can be easily consulted through the touch screen display.

ZT CLINIC SPEEDS UP RECOVERY TIMES.

IT IS POSSIBLE TO MEMORIZE THE TREATMENTS OF EACH PATIENT IN ORDER TO APPLY THE TREATMENT IN A TIMELY MANNER.

TREATMENT OF ATHLETES

The high level athletes, who often make intense efforts, need recovery to always be at their best and optimize their efforts.

For all this to happen, muscle recovery is vital.

The management of the acute and chronic phase is very easy thanks to the perfect **control of the temperature** and treatment times, depending on the type of trauma to be treated.

ZT CLINIC
IS THE MOST EFFICIENT
TOOL FOR THOSE ATHLETES
WHO WANT THE MAXIMUM
RECOVERY AFTER
PERFORMANCES.

In the acute phase of an injury the restriction of the "ships" can be induced by the ice, which being a vasoconstrictor decreases the blood flow.

ZT CLINIC
IS THE MOST SUITABLE
SYSTEM AFTER PUSHING
YOUR BODY AT THE LIMITS.

RECOVERY SYSTEM

ZT CLINIC temperature controlled system helps you to recover from fatigue faster between workouts.

ZT CLINIC allows to improve sports performance and therefore achieve better results.

The recovery program provided by **ZT CLINIC** is useful before training, after an intense phase of work or after an intense effort such as a competition.

ZT CLINIC, thanks to the **controlled temperature** and to the personalization of the treatment, makes it possible to recover faster, whether it be a routine workout or a high level competition where it is essential to give the maximum.

LIGHTER
LEGS...

YOU GO
FASTER!

ZT CLINIC

ALLOWS YOU TO
TRAIN HARDER AND
GET BETTER RESULTS.

ZT CLINIC:

ZT CLINIC MED/PRO & ZT CUBE

MODELLI E CARATTERISTICHE

- Medical device CE
- Cooling system without water or ice
- Temperature from -5 °c to + 45 °c
- Controlled temperature
- Precision of the temperature
- Touch screen with multilingual display

ZT CLINIC PRO

- Cooling in 90 seconds
- Temperature from -5 °c to + 45 °c
- Management of 4 arts at the same time

ZT CLINIC MED

- Cooling in 7 minutes
- Temperature from -5 °c to + 45 °c
- Management of 2 arts at the same time

ZT CUBE

- Cooling in 20 minutes
- Temperature from -5 °c to + 45 °c
- Management of 2 arts at the same time

ANATOMIC ACCESSORIES

The cold/hot are conveyed through insulated pipes and thermo-enveloping with velcro strips.

the anatomic bands remain soft in any condition and can easily be adapted to the part to be treated.

thanks to the use of the "T" tube, two treatments can be carried out simultaneously in two different parts of the body.

THE ZT CLINIC SYSTEM OFFERS A COMPLETE RANGE OF SPECIFIC RANGES FOR EACH PART OF THE BODY.
